NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

PHOTOGRAPHIC INTERPRETATION OAK REPORT

ARMY - NAVY - AIR FORCE - CIA

This Preliminary OAK Report precedes a series of daily OAK reports in which each of the highest-priority intelligence items reflected in the COMOR target listing will be reported, including negative findings. The OAK-reporting phase of exploitation on Mission 9017 commenced at 0830 hours, 26 June 1961.

Mission 9017 was accomplished on 17, 18, and 19 June 1961. It consists of 31 photographic passes over the Sino-Soviet ~~h~~loc (see accompanying map showing approximate track).

Preliminary evaluation indicates that approximately 35 percent of the coverage is cloud free. The PI quality of the unobscured coverage is generally good. The scale of the photography is estimated to range from 1:370,000 to 1:660,000.

It is estimated that about 40 percent of the COMOR highest-priority targets are covered by the mission.
